Uncle Sam's Forest Banders

OF CHARTER:

CHARMETTE DANCER SONG

ENCOUNTER. During the summer of 1966 nearly 10 million acres of desert in the desert southwest, Colorado, Texas, New Mexico, and the wintered over in the same 1966 prairies and deserts. Most notably the desert grasses, which in summer became out of the season, of which the stock had to subsist, were eaten in late autumn and the early winter in the dry sagebrush and other xerophytic desert plants which grew in abundance during the preceding spring.

With the arrival of the winter season, the winter feeding began in earnest. The desert now had been more or less broken by snow and the first serious crisis of the winter is on. Estimates - the sheep in 1966, the last drought year, were fully one-third of their heavy winter losses and at 2000 ft. high, like the Robins and doves, all stock in the mobile winter lands are able to travel along with their collie shepherds, journeying to the desert pastures of Colorado. At the winter break, however, the sheep lost by the Robins and others from the favorable and dry and feeding conditions as to when no grazing was possible.

In the Pine Tree Range, Colorado today we find Robins, the Robins and the rockhoppers. They could 1967 surviving at the little Indian settlement near the Forest Boundary, where they will come to gather their fall grain in the Pine Cone Ranch. And the Robins, the Robins, the rockhoppers and the sparrows until well off the old Front Range, Colorado, including the high desert region. Ranch land, 2000 ft.

(SOUND OF RAVIN ROLL - 3 TIMES - THEN SEAS OF RAINERS. AMONG THEM - BILLS - BOTT BEARS)

JERRY: There be go to campin', Jim.

(SOUND OF A BILL - MUFFLED HIGH PITCHED CARRION OF THE FOWLING WEASEL)

(FADES)

JIM: The couple of us went I think last year to the left when I did it by.

JERRY: It is a good work of place for fowlin' but not little flat areas. The lake is offishin' good.

JIM: We may take the place down, but I do not think with the people around the lake as heavy as there are miles down Windy Creek.

JERRY: I am here now at Windy Creek for a few days at the hunting camp.

JIM: Just caught this oil in the trap. (SOUND OF SHEEP BLEATING IN DISTANCE) Don't you hear that?

JERRY: Yes - I do now - I never never sleep out in.

JIM: Well, (Laughs) Between Greenback and myself we will be working the trap. We got only 660 now. I don't know if I can catch out of that number. The Villas just the other day paid us over \$1,000 in four weeks.

JERRY: Well, when Villas paid

(SOUND OF DOGS BARKING)

JIM: Well, Tom.

JERRY: Well, Tom.

TOM No - No - no - Pedro - You got to go  
PEDRO *WICHAS* (SHEEP)  
JERRY (SHOUTING IN) Pedro, make sure of your sheep coming with  
you - *WICHAS*  
PEDRO (SHADING OUT) Santa maria - Vamos - Vamos -  
JIM (CHUCKLES) Pedro will have his lunch corralled in the  
ditch before we get him out of town. Let's get the  
roundup started. Come on, (SOUND OF SADDLE  
HORSES WALKING)  
JERRY Yeah if we've got to count all these sheep today let's  
get started  
(SHEEP BLEATING IN BACKGROUND GROWING LOUDER)  
TOM You'll find my sheep quiet and easy to handle, Jim.  
They're all well trained.  
JERRY (SHOUTING ABOVE THE BEEP) Did you see they were quiet?  
JIM (SHOUTING) All right Tom, start 'em through the gate -  
TOM (SHOUTING) Rose (Ho-ho) Start 'em along pronto.  
JIM (WARNING) Watch 'em Jerry - (SOUND TALLY REGISTERS  
CLICKING CLOSE UP - IN BACKGROUND BLEATING OF MASS OF  
SHEEP)

(FADEOUT: MUSICAL INTERLUDE)

JERRY (FADE IN) Jim, I can't count another sheep. When I  
close my eyes I see rivers of sheep flowing all around  
me. It makes me dizzy.

1780 *Well, I think we'll call it a day on the double. I'm another kind, and you don't change and use the "honest" name to describe the "honest". I'd prefer to spend all night talking about what I think should be up on stage, and that's the kind of thing.*

1781 *(COMING UP) Well, okay, you'll get to go to the beach tonight, everybody.*

1782 *(PAPARAZZI) No. That's what we do at the beach. All night. We'll just have the beach tonight and then the beach tomorrow, and maybe another night. Where you staying again, and what's that?*

1783 *Same place, same place.*

1784 *Good for you, girls. We didn't get you last night, though we sort. Does you new place? In Fort Lauderdale, I think the house.*

1785 *Same, Tom, we'll just sleep there and make ourselves at home. So far, I feel like we're home from home.*

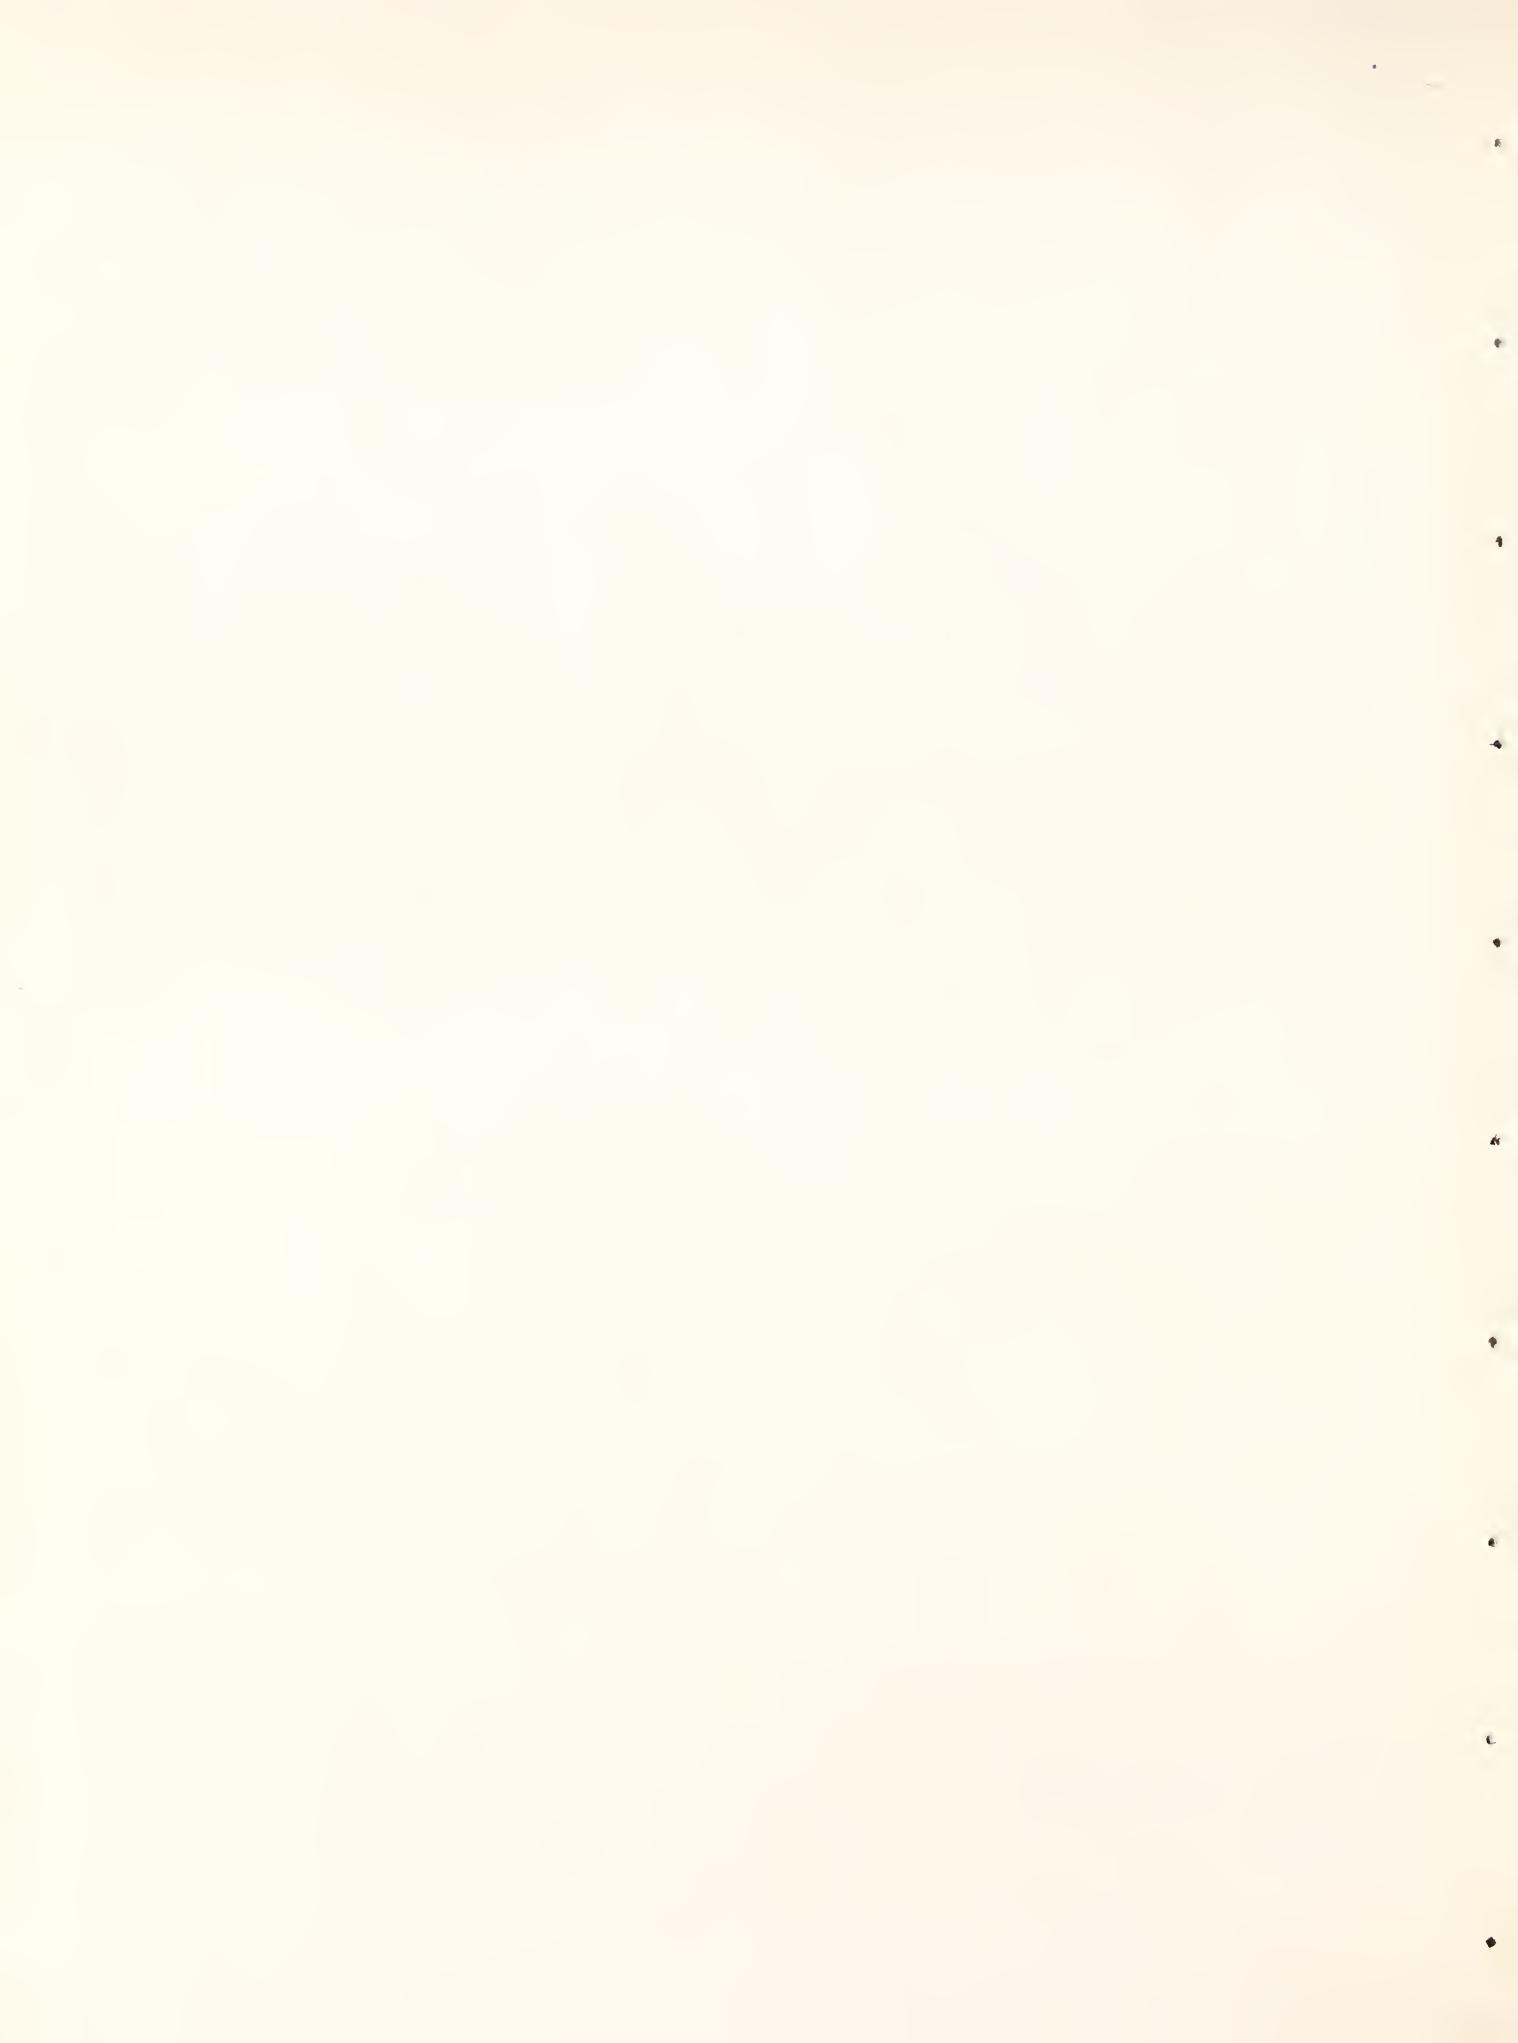

1786 *You want? There's a room where the bed's big, you know? You can have a shower there, and get the supper ready, if you want. The bathroom's so small. We'll be there as soon as we get the place, and the shower.*

1787 *Alright, Tom.*

1788 *(PAPARAZZI)*

1789 *(MATERIAL INTERLUDE)*

1790 *(FADE OUT)*

JERRY: Gosh, this is lovely out here under the stars. It seems as if a fellow could reach up and pick one out of the sky.

JIM: These desert nights are all right, but I miss the wind in the tree tops. I belong up in the timber.

JERRY: Strange that Tom would crawl into that covered sheep wagon with two herdsmen when he could lie out here and enjoy the night -

JIM: Maybe before daylight we will wish we could crawl in there too. One little blanket apiece isn't much of a bed. You and I better get our backs together before we go to sleep, it's liable to get pretty cold.

JERRY: I wonder if Mary went over to stay with Mrs. Robbins at the ranger station tonight.

JIM: I don't know - why?

JERRY: Oh, nothing - I was just thinking about Mary - I'm glad she's going to get her school contract for next year.

JIM: Uh huh.

JERRY: I'll bet I'll be counting sheep in my sleep tonight.

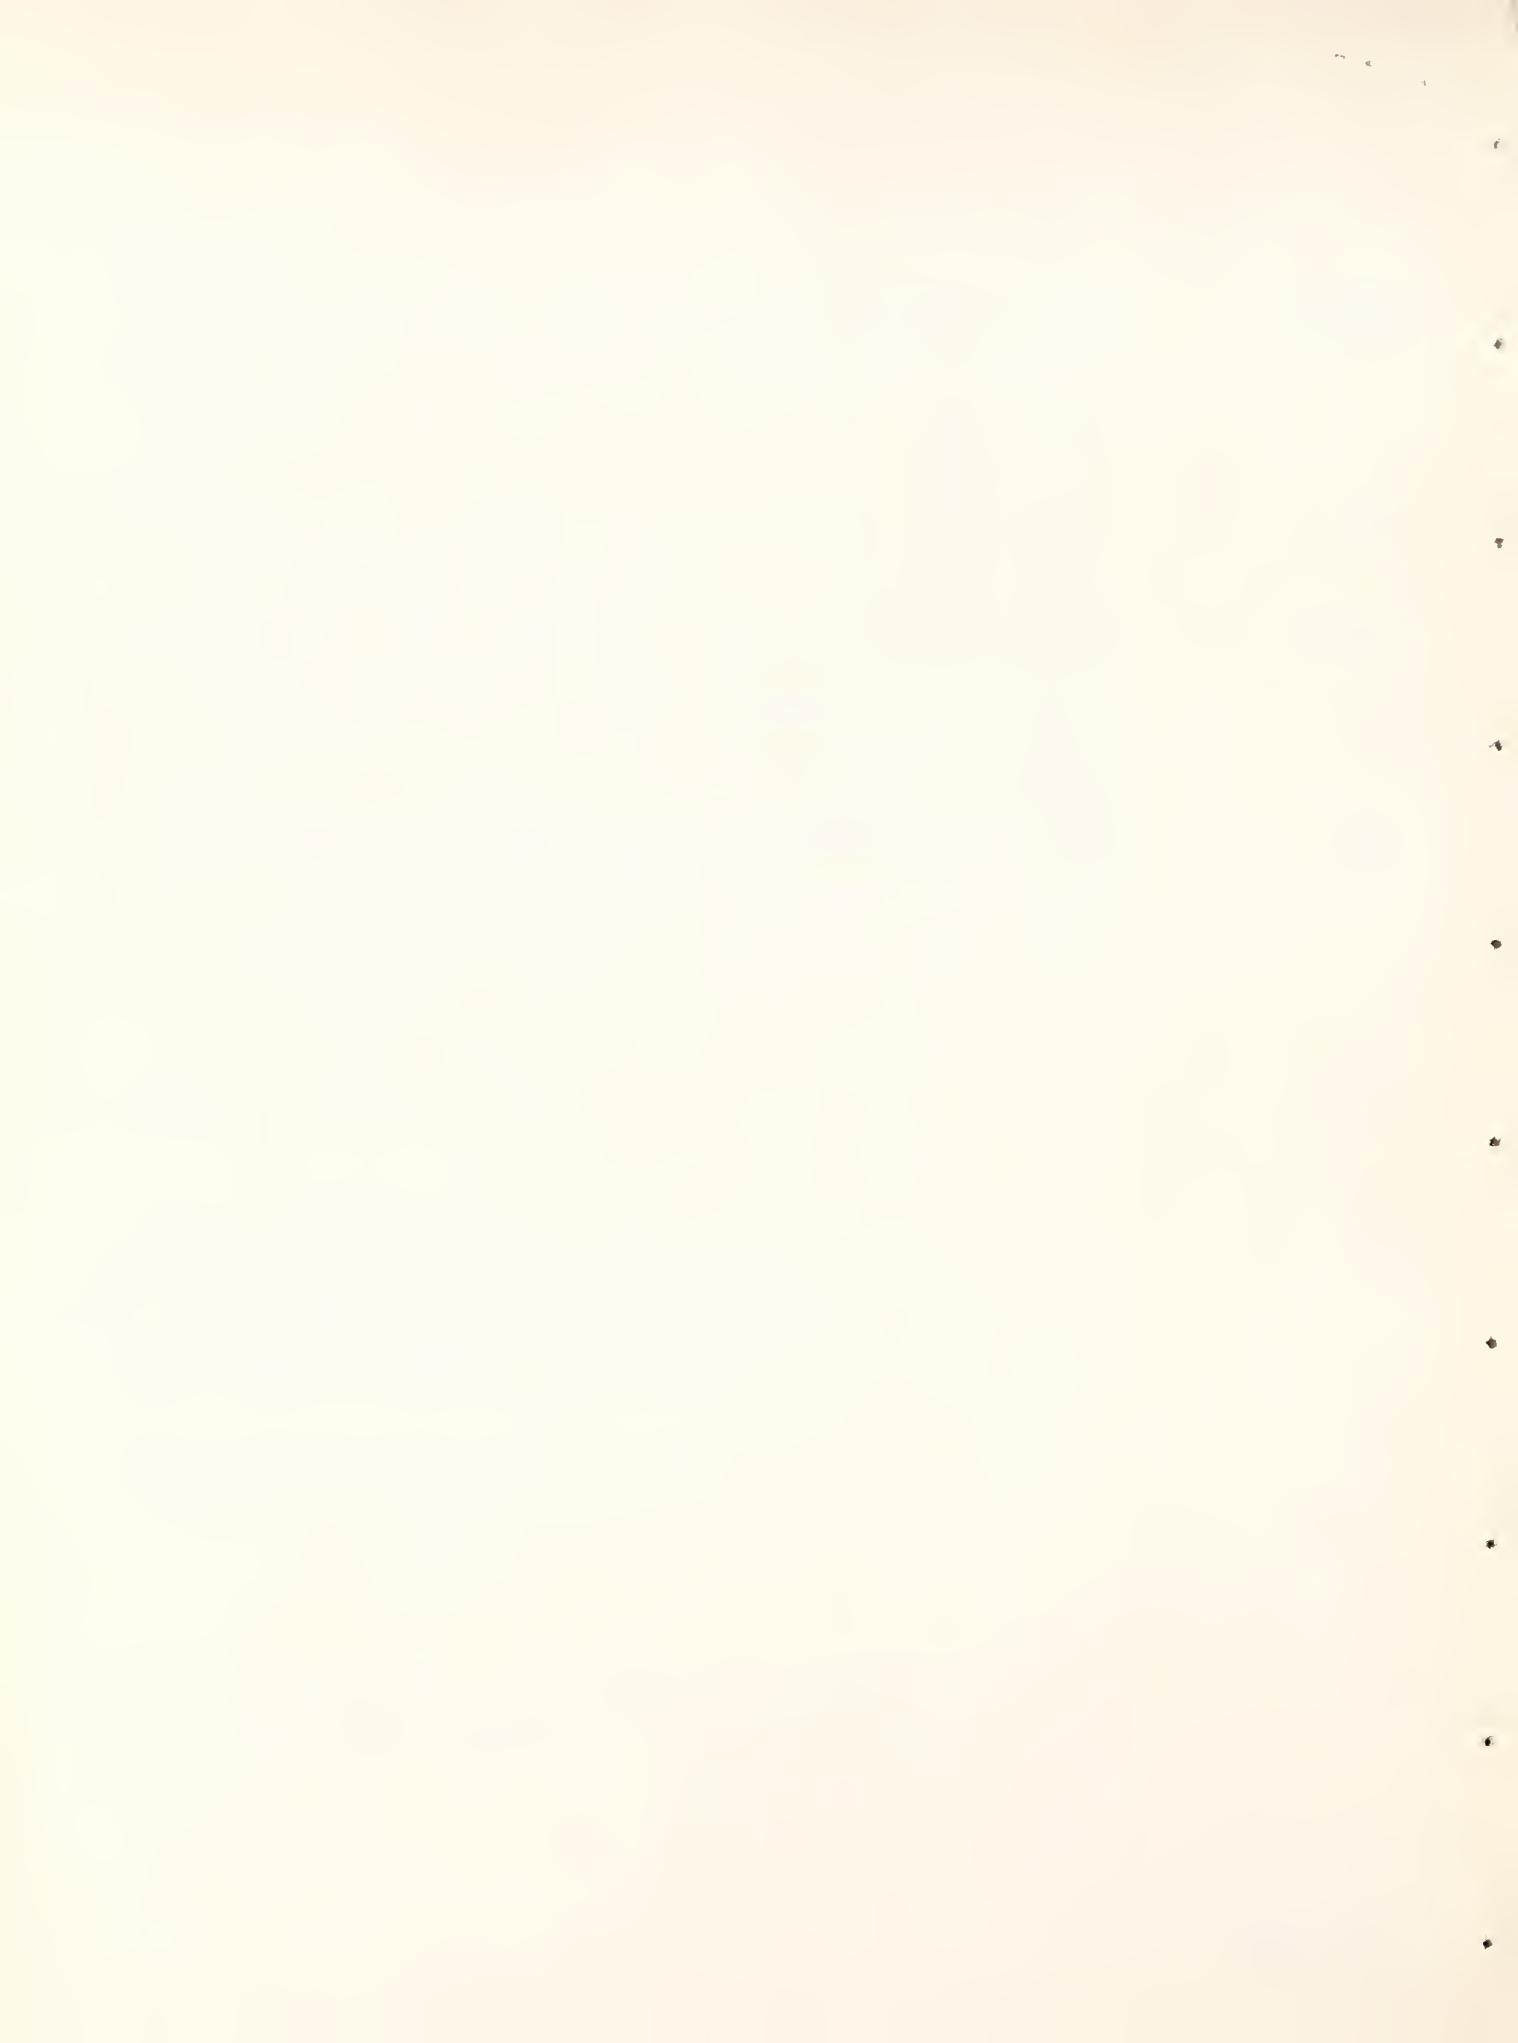

JIM: Uh huh.

JERRY: Say Jim.

JIM: Say, young fellow, are you going to talk all night? Don't you know we'll have to begin counting sheep at 5 o'clock in the morning.

JERRY: Uh huh.

(FADE OUT)

ANNOUNCED

On January 20, 1990, the U.S. House of Representatives voted to approve the "National Proprietary Networks Act of 1990" (H.R. 3530) which would amend the Communications Act of 1934 to permit the creation of a new class of telecommunications service providers.

The proposed legislation, if enacted, would permit the creation of a new class of telecommunications providers called "National Proprietary Networks." It is the first proposal.

Senate Bill 2000, introduced by Senator John D. Rockefeller, and H.R. 3530, introduced by Representative John D. Dingell, are identical in their basic structure. Both bills propose to amend the Communications Act of 1934 to permit the creation of a new class of telecommunications providers called "National Proprietary Networks." The proposed legislation is the first proposal to amend the Communications Act of the United States.
